SUMMARY

Informatics student with interest in Full-Stack Web Development. Experienced in developing web applications using Laravel, PHP, MySQL, and JavaScript through academic and personal projects. Familiar with REST APIs, database design, and version control using Git.

TECHNICAL SKILLS

Programming Languages: PHP, Python, JavaScript
Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js
Backend: Laravel, REST API
Database: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Postman, VS Code

EDUCATION

Gunadarma University
Bachelor of Informatics | 2023 – Present
GPA: 3.72 / 4.00

PROJECTS

Vehicle Tracker

Laravel, PHP, MySQL, Tailwind CSS, Alpine.js

Github : <https://github.com/Amiya23/vehicle-tracker>

- Built a vehicle maintenance tracking system with user authentication and profile management.
- Developed service reminder, tax reminder, odometer tracking, and maintenance history features.
- Implemented CRUD operations and relational database design using MySQL.

SecureAuth

Laravel, PHP, MySQL, Tailwind CSS, Laravel Breeze, PHPUnit

Github: <https://github.com/Amiya23/SecureAuth>

- Developed a secure authentication and user management system using Laravel 12 with Role-Based Access Control (RBAC).
- Implemented authentication workflows including registration, login, email verification, password reset, profile management, and avatar upload.
- Built an admin dashboard with user management, role assignment, activity logging, and dashboard analytics.
- Applied secure coding practices including middleware authorization, password hashing, CSRF protection, login rate limiting, and feature testing with PHPUnit.

ORGANIZATIONAL EXPERIENCE

Gunadarma Esports Championship | Valorant Division Coordinator | 2024

- Led the Valorant Division in designing tournament brackets and match systems.
- Coordinated match operations and supervised tournament execution.
- Collaborated with committee members to ensure smooth event management.
